Work Experience

Owner, Clinic Director

Rodrigues Chiropractic - Long Beach, CA
August 1992 to Present

My daily responsibilities include all aspects of clinic operation as well as clinical case management. Providing quality care and service while sustaining profitability is prioritized. Daily duties include performing evaluations, ordering diagnostic tests and procedures, coordinating care with other medical professionals, making appropriate referrals, Med-legal narrative report writing and providing expert witness testimony in Personal Injury cases. Treatment protocols are designed for both injury and wellness patients. Treatment plans for injury patients are designed with the goal of restoring functional capacity and minimizing permanent residual impairment. Both Injury and Wellness Patients' goals are achieved through the utilization of regular chiropractic adjustments, patient education, rehabilitation and functional restoration, proper diet and nutrition, lifestyle modification and various adjunctive therapies and procedures.

Lead Doctor

The Joint-The Chiropractic Place - Santa Ana, CA
September 2015 to September 2017

My daily responsibilities included managing all aspects of clinic operation and patient care. I evaluated monthly sales statistics, expenditures, employee performance, developed marketing strategies, and reported to and met with corporate management frequently. I helped train new doctors and assisted in implementing new policies and procedures for the Chiropractic providers and support staff. Treatment protocols that emphasize wellness through regular chiropractic adjustments, lifestyle modification, patient education, functional restoration, and proper diet and nutrition were emphasized.

Clinic Director

Inland Empire Chiropractic - San Bernardino, CA
September 1990 to July 1992

As Clinic Director I developed procedures for the coordination of care amongst various practitioners in a multidisciplinary setting. I supervised as well as participated in all aspects of patient care and case management including; evaluation and treatment, setting up treatment protocols, communicating with health care providers from other facilities, narrative Med-Legal report writing, communication with insurance personnel, adjusters, and attorneys. The Chiropractic-Medical group was composed of chiropractors as well as medical specialists in orthopedics, neurology, and pain management. Patient case profiles included a large number of Workers Compensation and Personal Injury cases.

Treating Doctor

International Health Center - Fountain Valley, CA
April 1990 to August 1990

Responsibilities included all aspects of patient care and case management such as performing spinal adjustments, application of physical therapy modalities, patient education, coordinating care with other health-care professionals, performing disability evaluations, and narrative report writing in Workers and Personal injury cases.

Education

Seminars and Continuing Education Los Angeles College of Chiropractic - Whittier, CA
